

**HUGONG****SINCE 1958**

TOTAL WELDING AND CUTTING SOLUTIONS

The 1st CNC Cutting Machine Manufacturer in China

INTELASER

Model	HGLA3015
Application	Fiber laser cutting mild steel, stainless steel, aluminium, copper and brass
Power supply(V,Hz)	110/220/230/240V, 220/380/400/415/460V, 50/60HZ
Power consumption	Refer to power consumption list
Effective cutting size	1500*3000mm
Machine overall size	4820*2200*1880mm
Machine installation size	7520*7520mm
Laser capacity	0.5KW, 0.7KW, 1KW, 1.5KW, 2KW
Cutting thickness	Refer to cutting parameter list
Laser resonator brand	IPG, Raycus, N-light, SPI (customer preference)
CNC	Cypcut system with Keyboard and mouse
Safety operation	Button and switch to ensure safety operation
Cut head	Raytools with Auto Focus
Cut head height controller	Supplied with
Acceleration	1.0G
Positioning speed	80m/min
Loading capacity	700kg (1500*3000*20mm per piece)
Extraction channel	Supplied with and ready for connection to fume extractor

	Laser machine	Hugong package
	Laser unit	Hugong package
	Chiller	Hugong package
	Air compressor	Customer job
	N2	Customer job
	O2	Customer job
	Air Tank	Customer job
	Floor	Customer job
	Power Supply	Customer job

- Expert in 0.5KW 0.7KW 1KW 1.5KW
- Professional configurations
- Very Solid table by high standard fabrication
- Higher dynamic by higher acceleration
- Extreme comfortable operation
- Reliable components and parts
- Life time service support at any time

- Incredible cutting functions
- Fantastic cutting parameter database
- Higher accuracy by assembly process
- Extreme smart automation
- Unique compact design to save space
- Quick and professional advice service
- Cut by air: M.S 0.5-3mm/ S.S:0.5-3mm
